Declares Unconsiitutional Act Making Circuit Clerk Umpire.

Covington, Ky., Sept. 17.-Judge Lassing, who yesterday heard a motion to dissolve the injunction granted by County Judge Stephens preventing Circuit Clerk Droege from acting as referee of the Kenton board of election commissioners today handed down a decision overruling the motion. Judge Lassing declares that the law, which applies only to counties containing cities of the second class is unconstitutional. The law was passed in an effort to prevent Sheriff McInery, who is at outs with the Democratic organization, from acting. Judge Lassing. who declared it invalid, is a Democratic state central and executive committeeman.

CHAMPION & CHAMPION, ATTORNEYS-AT-LAW.

The above is the picture of a law office in Marion and also its proprietors, who look alike, dress alike, walk alike and talk alike, and who are partners, brothers and twins. They are sterling young men and have been engaged in the practice of law about two years. They are 25 years of age, of erect stature and over six feet tall. It is no trouble to distinguish them in any crowd. They were born and reared in Livingston county on a farm near the village of Hampton, where their parents, Mr. and Mrs. Joe Ben Champion now reside. They have no sister and only one brother, Prof. R. R. Champion, who is principal of Salem Public Schools. The twin brothers attended the University at Lexington in 1900 and after that J. B. Champion, jr. began the study of law under Hon. J. K. Hendrick, of Paducah, and in 1901 came to Marion where he continued and completed his course under Hon. L. H. James and his son, Congressman Ollie M. James, being admitted to the Marion bar in March, 1902, Circuit Judge Nunn on the bench. Thos. W. Champion taught school in 1899, 1900 and 1901 and attended Bowling Green law school where he graduated, receiving a diploma and being admitted to the Bowling Green bar in June, 1902, Circuit Judge Warner E. Settle on the bench. The young men are acquiring a good practice and their patronage is increasing. Strange to say, while the young men are twins, matters with which they are associated often travel in parallel lines. Judges Settles and Nunn under whom they were admitted to the bar being elected to the Court of Appeals at the same time, and it is reported that there is likely to be a double wedding before long.

No Matter What Doctors Say-We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz.: (1) Weakness or Debility; (2) Rheumatism or Neuralgia; (2) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

JAPANESE ENJOY BATHING.

Take Baths Hot and Cold and Dispense with Anything Like Clothing.

From time immemorial the bathtub has been an honorable institution in Japan. Instead of a cold dip in the morning, the Japs take their baths hot in the afternoon, at about five o'clock, and, beginning at 100 degrees, the tendency is to raise the temperature as one becomes acclimatized, so to speak. Some preparations are being One traveler, says the Chicago Inter Ocean, tells of the Kawarayu bathers, who stay in the tub for several weeks at a time with stone in their laps to keep their bodies

Is the Real Woman Kidden Behind Lying Lips?

By MAXINE ELLIOT, the Actress.

WOMAN cannot tell the truth about herself; she dare not expose the real woman to the scoffing eyes of the world.

A well known playwright, whose plays throb with human passion, with suffering, with love, with hatred, with despair, vigorously asserted as her belief: "No, a woman not only cannot but should not be asked to tell the truth about herself. Would we lay bare our pulsing nerves to the unskilled surgeon? Why, then, should we ask a living, throbbing, sensitive woman to lay bare her heart for the daws to peck at? There are two great movements, at least, now operating in the new education for the country child, if it may be called a new education, which gives us a glimpse of the educational possibilities. The first has

to do with the spirit of the child, the school, and the home, and the second has to do with the environment of the child, a consideration of the farm interests as educational factors.

The indoor art movement is bringing more attractive school rooms for the country child. There are great possibilities in the library movement.

The course of study for the country child should be more practical. The things surrounding the child on the farm should be utilized in a system of training that will result in greater efficiency for life's work.

Best Time to Marro

By MRS. MAE D. FRASER.

It would seem that the best time to marry is when the mind and heart are satisfied that the true ideal has been found and that with

this ideal is the assurance of practical happiness founded upon esteem, respect and close friendship. All this points to something beyond first youth with its lack of ex-

til the second fare point is reached. Perience and impractical enthusiasms. It is an undoubted truth that the progress in advancement for

women along educational lines has brought about a change in the

Girls are so independent in these days they do not make a hasty choice merely to arrive at matrimony, for it is no longer necessary for a woman to be a wife in order to have a home. And yet our girls are fitting themselves for noble wives and mothers, and there is among them the highest sense of the duty and privilege of the home-maker.

It is certainly wise for a young man to found a home just so soon as he sees his way clear to support one in a simple way, and when he can find a young woman ready and willing to share his duties, and this may usually be accomplished by the time he is 26. If he finds a wife of 23 years, she will have had the time to enjoy a free and happy girlhood and have learned to know something of the joys and responsibilities of

The man must be the head of the house in the right marriage, and the reasonable woman realizes this and appreciates the strength she can rely upon in trouble or difficulty.

Marriage is not so much a lottery as many wise heads will tell us. It is, rather, a wonderfully simple and happy state of being that is arrived at through some trying experiences, but in which mutual forbearance, true consideration and perfect courtesy bring ideal results. There J. Freyer

The bomely idea of washing in the dew of the morning as an aid to beauty is simply a practical way of expressing this fact.

ENGLISH SPARROW IN WEST

Spread All Over the Country.

The first English sparrows were brought to Kansas City in 1874, says the Topeka Herald.

F. W. Giles conceived the ide: of importing some of these birds. He shipped in 28 of them. They were confined in cages at his place in Topeka until all but five had died. At last the five were turned loose to take their chances of life or death, though Giles had ne hope that they would live. They fooled him.

They took up their home in the neighborhood. The following an T. P. Hard, tumn there were 12 birds. The T. M. LaRue, second summer found 60, and the P. C. Moore, third summer about 300. Then Geo. D.
